ANNUAL REPORT 2022-2023

The academic session this year started from 6th of April. We got our affiliation from CBSE, New Delhi, for Secondary School on December 2020. We are happy to declare that our first batch of tenth standard students has come out with flying colors to all of our happiness and pride.

We now have fully equipped science, math and computer laboratories for our students' benefit. Our library is also expanding with new books almost every day.

To enhance academic performance by the students, the digital Audio-Visual classrooms / smart classes too have, to a larger extent, served the purpose of aiding curriculum where our students have always enthusiastically responded to it.

Our July was kind to invite our Vice Chairman and myself to ITC, Chennai, for Eldrok India's K-12 awards to present us with an award for excellence in value enrichment and life skill education. It also bestowed our students with the chance to participate at the national level sports meet at Chepauk where our student Nandhiga of Grade 3 got the third place at the National level competition.

During August, we had our Janmashtami celebrations. Our students enjoyed exploring science through an igloo setup.

Three of our teachers received best teacher awards from Kanchi Cluster and we also attended a webinar for a briefing on the National Education Policy.

During September, we had our Onam celebrations. We conducted various Talent-Ed shows for the children to showcase their drawing, handwriting and essay writing skills and all the students who participated were presented with a participation certificate.

On October, we celebrated colorful nutrition week. Students were presented with a healthy menu to follow for a week to encourage healthy eating habits among children during our Healthy Food week.

November courted us graciously with a lot of opportunities and exposure. We celebrated children's day with the happiness of the possibility of being back here at school. We also took all our students to the Vandalur Zoo for excursion.

Shortly after that, our beloved students proudly rallied for Unity in India from Puliambakkam to Sankarapuram. We asked all the students to make first aid boxes to emphasize more on practical learning and to create awareness on Ambulance. We also helped students learn about Fire Safety. To introduce the concept of money practically to our tiny tots, we celebrated 'Trade Day' where our munchkins sold food at nominal prices. To keep their health in check, we successfully conducted a Medical camp during the month as well. More than 30 students participated and secured various prizes in the Karate tournament in Irumbuliyur, Tambaram during the month under the able guidance of Mr. Rollin Rana.

We asked our students to present us with poetries and our students did not cease to amaze us with the beauty of their words. To encourage and keep up our students' reading skills during their Christmas holidays, on December, we used the chance to experience Kancheepuram's first ever book fair with our children and they took home an art kit to remember the day by.

During January, we celebrated Pongal and conducted many games for our children. Our students underwent Karate training in GKM College, Vandalur and displayed their talents in Silambam and Karate during our Republic Day celebrations. We took our children on an educational tour to Guindy National Park to help them unwind and relax. On the academic front, we took our students to IIT, Madras, to gain an insight into coding and robotics.

During February, we conducted a workshop and demo for both our students and staff from the Question Cloud platform to enable our children to be able to read outside the classroom and our teachers to improve their students' spectrum more effectively. We successfully conducted a workshop on February especially for our KG teachers from MI Kids as well.

On March, we conducted another competition to hone our students hand writing and essay writing skills. To complement their creative side, drawing competitions were also conducted. Notably, our first batch of tenth standard finished their last exam and enjoyed their farewell with us the same evening.

We have also registered and triumphantly conducted many other workshops and competitions throughout the year for the benefit of both our students and our staff.
